

yazoo

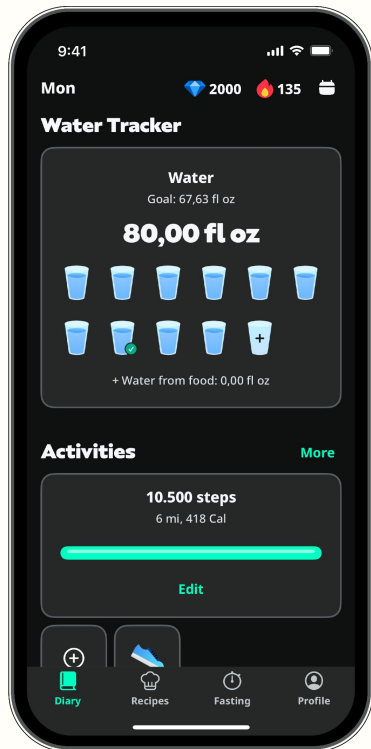

The app

Yazio is a **simple, nutrition-focused mobile app** enabling people to **create healthy, realistic and sustainable eating habits**.

The effective, user-friendly features include a **calorie and macronutrient tracker**, an innovative **AI food scanner**, a convenient **barcode scanner**, detailed **analyses and statistics**, smart **food ratings**, automatic **activity tracking**, an ever-growing **recipe database** and a large selection of **intermittent fasting trackers**, to name a few.

Find a complete list of Yazio Pro features in our [Help Center](#).

The Yazio app is **available on Android and iOS** in **150+ markets and 20 languages**.

Monetization

The Yazio app is a **freemium product**.

As we want to help as many people as possible lead healthier lives, the **basic version** of Yazio, which includes a limited selection of our core features, is completely **free of charge**.

To unlock the **app's full potential** and make even greater progress on their journey, users can upgrade to the **Pro version** by purchasing a **time-limited subscription** (3 or 12 months). This gives them access to the complete set of powerful features in the Yazio app.

Yazio then & now

Yazio was founded by **Sebastian Weber** and **Florian Weißenstein**.

Where it all started

In 2008, fueled by their passion for fitness, nutrition and technology, they decided to create a web-based online nutrition and health portal as a side project during their studies. After a few years of seeing significant growth of their website, Sebastian and Florian **released the Yazio app in 2014**.

Where we are now

Today, the Yazio app has **over 100 million users** (December 2025) and is **one of the most popular nutrition apps in the world**, helping people around the globe lead healthier lives.
